SUMMARY

Passionate software engineer that grasp of multiple programming languages. I am known as a self-starter, team player, multitasker that is striving to consistently exceed expectations.

PROJECTS

Snake Game

A remake of the classic snake game using JavaScript, HTML, and CSS. Eat apples to grow your snake. The game ends when you run into your own body.

To Do List

To do list made using JavaScript, HTML, and CSS. You can add to the list, remove from the list, and filter between all, complete, and incomplete task.

Tip Calculator

A tip calculator made using JavaScript, HTML, and CSS. Enter the bill amount and tip percentage to receive the tip amount and total bill.

Shopping Cart

Shopping cart made using JavaScript, HTML, and CSS. You can add to the cart, remove from the cart, and adjust quantity. The application will calculate the total cost of all the items in the cart.
